

DPSSL with fixed single frequency wavelength between 513 - 563nm or 1026 - 1126nm.

Already demonstrated:

- + Customer requests highly appreciated!
- + Current wavelength accuracy ± 1 nm
- + 20 and 50mW of output power, $M^2 < 1.2$.
- + 720-860nm and 355-430nm in development.

Discuss your request with our R&D staff!
